

Nature Weaves

What you'll need:

Yarn in several bright colours

Popsicle/craft sticks or small twigs

Scissors

Optional: Variegated yarn, beads or feathers

Steps:

- Cut a length of yarn (at least 1m)
- Tie two sticks together in an X shape using one end of the yarn
- Wrap the thread over and around one stick, then on a diagonal to the next stick and over and around it, on the diagonal to the next stick and over and around it, and so on
- Continue like this until the weave is a good size
- If you want to change thread colours, simply tie a new colour onto the end of the existing thread and continue on the pattern
- When ready to finish, tie off onto one of the sticks and leave a length of thread so they can be hung up
