

Sun Catchers

What you'll need:

Paper plates

Clear packing tape

Flowers and leaves

Scissors

Paint/glitter

Thread

Steps:

- Carefully cut a circle out of the centre of the plate - paint the plate if desired (glitter looks great!)
- Use the packing tape to cover one side of the plate
- Gently press flowers and leaves onto the sticky side of the tape to create your sun catcher pattern
- Use packing tape to tape over the flowers and seal the sun catcher
- Poke a hole into the paper plate and thread the thread so you can hang it in a window
